PAUL SMITH'S

Motor Boat Races the Feature of the Last Week.

Paul Smith's, N. Y., Aug. 19.—Interest in motor boating has been steadily on the increase here, and the introduction of several new power boats has stimulated interest and rivalry among the campers. Allan Ryan, of New York, has a new 70-horsepower boat, Wondawby, one of the finest on the lake, and which has not as yet been tested to its utmost. In a skirmish race with the fast boat of George H. Earle, Jr., the Wondawby equalled the Earle boat on the straightaway, but being a longer craft could not make the turns as swiftly. In Thursday's race there were ten of the wave splitters, with entries by George S. Brewster, Allan Ryan, Robert

The announcement that the Adirondack Inn will remain open during September will be met with pleasure by many persons

THE MAKING OF AMPHIBIOUS MAN: SOUTH SEA MOTHERS THROWING THEIR CHILDREN INTO THE SURF TO ACCUSTOM THEM TO THE WATER.

When a bathing expedition is the order of the day, the children, many of them mere babies, are taken to the shore by their mothers. When the water is shallow the youngsters usually contrive to fall into it of their own free will; if it happens to be deep, their mothers throw them in, often doing this from boats some distance from the shore. If the

child kicks out valiantly and manages to struggle to land, which often happens, it is met boisterously, hauled out of the water and much acclaimed. Should it sink instead of swim, its elders dive in after it and bring it to the surface. By such Spartan treatment is the average South Sea Islander made amphibious and the envy of those who do not swim.

A TREASURE SHIP'S BELL RUNG TO ANNOUNCE LOSS.

The Lutine, a 32-gun frigate of the British navy, was lost off one of the entrances to the Zuyder Zee on the night of October 9, 1799, with a cargo of coin and specie, valued at £1,217,000. Since that time £100,824 of this sum has been recovered, the bulk of it in 1800. Recently the wreck was located again, and it was decided to attempt to pump the sand

from her in a search for gold. It is particularly interesting, in view of this to note that the Lutine's bell is rung by the "caller" at Lloyds whenever news is received of an overdue ship and when definite news comes of the loss of a ship. At its tolling all transactions are suspended until the purpose of the message it has heralded is known.
